

# Porterville College

## Program and Division Outline

(Revised Fall 2007)

Listed below are each of the nine divisions at Porterville College and the various programs within each division. Each division is in all caps. The next outline level (with arrows pointing rightward) shows the programs in each division. Each program may contain one or several subjects. Subjects are listed as bullet points under each program. After each subject is the four letter abbreviation used for each subject in the schedule of courses. In a few cases (such as English and Math), one subject may be broken up into more than one program. In such cases, the specific course numbers used for each program are listed for that program. Note that a program's listing on this document does not guarantee that courses in that area will always be offered. Some programs are deactivated or discontinued, but will remain here in case they are re-established.
